

## NEWS RELEASE

### **Natoli Engineering Welcomes Tablet Tooling Expert Todd Martin**

**ST. CHARLES, MO (3/12/2024)** — Natoli Engineering, the world-renowned leader in tablet compression tooling, presses, machine parts, and encapsulation, is excited to announce the hiring of longtime expert in the field, Todd D. Martin, into his new role as Senior Technical Service Engineer. Prior to his role at Natoli, Mr. Martin served as a Senior Tooling Engineer at Wilson Tool International for over five years, and in multiple tooling-related roles for over 22 years at Thomas Engineering.

While at Wilson Tool International, Mr. Martin authored several whitepapers, including [“Tableting: Minitablets and Microtip Tooling”](#) and [“Tableting with Poorly Compactible Formulations”](#). Todd has also conducted an array of training classes, with topics including advanced tablet design, film coating, micro tip tooling, multi-tip tooling, tablet quality troubleshooting, tooling troubleshooting, and the art & science of tablet compression.

“Natoli is the leading tablet tooling company in the world, and I’m extremely grateful to be able to continue in my vocation,” said Mr. Martin.

In his new role, Todd will continue to author technical articles for publication and sales support, write standard operating procedures, complete tablet and tool designs for customer products, provide technical support and troubleshooting, facilitate trainings, and be an integral part of new product development. He is also a Steering Committee member of the American Pharmacists Association for the Tableting Specification Manual 8<sup>th</sup> Edition (scheduled for publication in 2024), which establishes tablet tooling standards for North America.

Bill Turner, Technical Service Manager for Tooling and Tablets: “With Todd joining the team, we have just added 28 more years of knowledge and experience with tablet design, tooling design, engineering, and troubleshooting to the team. I think it is very safe to say that Natoli now possesses the strongest

engineering and technical team in our industry! We are extremely excited to have Todd as part of the Natoli family and look forward to his contributions to continue Natoli's history of delivering an excellent customer experience.”

The addition of Todd Martin to the Natoli Engineering team not only brings on board his genuine care and concern for the needs of the market’s customers, but also strengthens Natoli’s position as the global leader through the vast breadth and depth of Mr. Martin’s knowledge and experience.

**About Natoli Engineering Company** —The undisputed global leader in tablet compression tooling manufacturing, Natoli Engineering Company has served the pharmaceutical, nutraceutical, confectionery, and veterinary industries for more than 50 years. In addition to encapsulation products, Natoli also offers tablet presses, tablet press replacement parts, tooling and press refurbishing services, analytical inspection equipment, technical training courses, and the most comprehensive tablet compression accessories catalog in the industry.
